

Standard marketing package

Our standard marketing package offers sellers the ability to sell their home online without the need for estate agents.

Our service is simple and starts at a fee of only £35.00, that's all you'll pay and your property will appear on our website until sold. You can save yourself thousands in estate agent fees by using our service as we charge a simple fixed fee.

We offer two packages to sell your home, standard and advanced. Please review the chart below for comparison.
