Jane Marr sales director

How it works

We advertise your home on the internet and find you a buyer for your home. When a buyer is interested in your home they will contact you direct from your property advert. You then start the communication process with your buyer.

Did you Know

In recent studies by The National Association of Realtors (USA) and Fish4 Homes (UK) indicate that 70% of buyers use the internet to search for a new home. Our system will present your property to these buyers. That means buyers are searching for home right now using the internet.

Creating your property advert .

It is very simple to create your property advert. Follow our step by step guide and your property can be

live on the internet in less than 15 minutes. You can access your advert at any time and add, edit or delete it whenever you like.

Amending your advert

Whilst creating your property advert we will send you a Password and User name. Simply log into our members area and amend your advert. You can do this when you like as often as you like. You will find Members login boxes on every page.

Your property advert exposure

Your property advert will receive huge exposure, we have thousands of buyers visiting our network every month and feature in the worlds busiest search engines. The fact that you are here now shows you our marketing really does work

Our network

Your property advert can appear on our network of web sites this will maximise the exposure of your home.

Dealing with your enquiries.

We will forward all your enquiries to you. Buyers who express an interest in your home will make an enquiry from your property advert. This enquiry is automatically sent to you. Enquiries made with our partners come to our office and are forwarded to you asap.

Contacting your buyers

You simply contact the buyers that state an interest in your home. Your email address will never appear online and is never given to anyone without your permission.

We are here to help

We offer live and email support and you can contact us by phone. Many similar companies are run by computers and do not encourage their customers to contact them
